  - Power
  - Monitor
  - Printer
  - Internet/Network
  - Speakers
  - Any External Devices (Portable Harddrives, webcams, etc...)
  
- **Computer Setup:** Configure your computer for its first use
  - Configure user account(s)
    - Each user can have their own account or share a single account.
    - Default is all users are Admins on the machine
    - \$25 per user extra charge for users you don't want to be admins
  - Internet Setup
  - Printer Setup
    - Includes setup of a new printer
  - Install 1 software suite Ex:
    - Microsoft Office (you must purchase separately)
    - OpenOffice
  - Configure drivers for any external devices (webcam, game controller, etc...)
  - Remove any "Bloat Software"
    - Sometimes computers come with trial installed software that is not needed for the system. We can identify this software with you and remove it.

Service	Price
File Transfer: Old Computer To New Computer	\$90

***What's Included:***

- **Transfer all your "Common Files" from your old computer to your new computer. Including:**
  - Pictures
  - Music
    - Music transfer includes transferring your iTunes music library.
  - Documents
  - Excel Files
  - Etc...

Price is for up to two hours of data transfer time and configure. If you have an unusually high amount of data to back up it's an additional \$40 per hour on time spent waiting for files to transfer. You will not be charged if other work can be done while waiting for data to copy. This can be discussed and determined before backup begins.

Service	Price

Install Additional Ram	\$50

RAM is the short term memory your computer uses for all the applications it's currently running. Many times upgrading your RAM can help speed up your machine if you have multiple programs running simultaneously and your computer seems slow or have an older machine.

**What's Included:**

- First contact me with the make and model of your computer or laptop. Based on that we will determine what type memory your machine needs. With that information you can purchase the memory and amount of your choosing.
  - *(I can advise where to purchase from if you need)*
- Installation of the RAM (after your purchase)
